SKIPPER 150

Inflatable life jacket, ISO 12402-3 certified, class 150, effective buoyancy 150 N, quick-release clasp closure system in acetal resin with integrated adjustment.

Designed for recreational activities carried out in the open sea and/or under adverse weather conditions, with the possibility to safely await rescue even in rough waters. Provides maximum safety for any type of navigation.

Easy and intuitive to wear, it offers the utmost freedom and mobility aboard during navigation manoeuvres.

CASING FEATURES

- Collar in breathable mesh
- Dorsal strap
- Velcro closure
- Quick-release clasp with integrated adjustment
- Rescue assistance loop
- Lifting handle

VERSIONS

CODE	PRODUCT NAME	ACTIVATION	ACTIVATORS
09230/1	SKIPPER 150	AUTOMATIC	UML MK5
09231/1	SKIPPER 150	MANUAL	UML MICROMANUAL

SKIPPER 150

Floatation chamber with single compartment in PA 420 PU COATED material with electronically-controlled high-frequency welds. Provides optimal positioning and perfect stability in the water. The thrust rotates an unconscious person and angles them so as to keep their airway free of water. What's more, once the chamber is inflated, it is possible to swim unimpeded to reach safety or to quickly climb into a lifeboat.

ACTIVATION SYSTEMS:

- Automatic: upon falling into the water, the system automatically activates within 5 seconds of submersion, with the inflation of the floatation chamber. Automatic activation is possible with the salt activator UML MK5, through the dissolution of a water-soluble tablet.
- Manual: the system is operated through pulling the dedicated lever. The product comes with the UML MICROMANUAL activator booklet and is activated exclusively by hand.
- Oral: this type of inflation is achieved via the special mouth tube, with a non-return valve and protective cap. To inflate the chamber, simply blow into the tube.

SKIPPER 150

SPARE PARTS

Whistle

25180

A mandatory accessory that permits an emergency sound signal to be issued. ISO 12402-8 certified

Rearming

UML: rearming kit (26233), water-soluble tab (25005), green pin MK5 (25003/MK5), green Micro-Manual pin (25003/UML2)
Canister 33 g (26033)

ACCESSORIES

Sprayhood

09145/SK

Reduces the risk of secondary drowning via inhalation of nebulised water. Improves detection of the castaway.

LED light

03030

Automatically activates upon falling into the water. Renders the device visible for up to a mile. SOLAS M.E.D.-certified and USCG approved

Crotch strap

09146

Use of this accessory improves the body's inclination, stability and positioning in the water.

Crotch strap

09148

Use of this accessory improves the body's inclination, stability and positioning in the water.
