

MODULO SMART 290

VACUUM

FEATURES	
codes: 02132/P/SMART- 02132/P/SMART/HAMMAR	
Type	Inflatable life jacket
Activators	02132/P/SMART UML MK5 [SAA] 02132/P/SMART/HAMMAR MA1/EC [SAA] Oral tube
Canister	60 g 1/2" GAS threading
Effective buoyancy	290 N
Fastening mechanism	Quick-release clasp in acetal resin with integrated adjustment
Certifications	SOLAS M.E.D.
Size	Adult
Weight supported	43-140 kg
Waist circumference	Up to 175 cm
Chamber	Dual-compartment floating chamber with X3D system, PA 420 PU-coated material, fluorescent yellow in colour
Product packaging	VACUUM-SEALED PE BAG material, transparent, tear-open
Product dimensions	Approx. 40x16x8 cm (Vacuum packed)
Product weight	02132/P/SMART (Approx.1220 g) 02132/P/SMART/HAMMAR (Approx.1185 g)
Packaging	60x40x40 cm (18 pieces/pack)
Inspection	Obligatory every 12 months
Accessories included	Automatic emergency light
Spare parts	Automatic emergency light, whistle, rearming kit
Veleria San Giorgio reserves the right to modify the technical specifications without prior notice	

MODULO SMART 290

VACUUM

SOLAS M.E.D.-certified inflatable life jacket for professional use.

Effective buoyancy 290N with single activator. Fastening mechanism with quick-release clasp in acetal resin and integrated adjustment.

Designed to maximise efficiency and limit bulk, whilst minimising costs.

CASING FEATURES

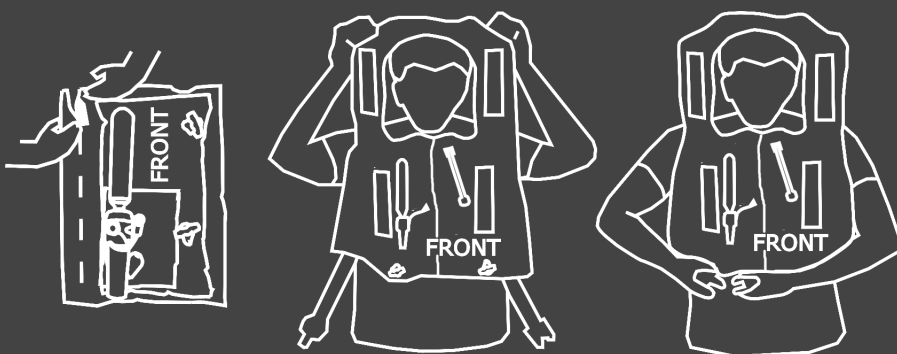

- Side-adjustment clasp
- Lifting handle
- Buddy system

LEGEND

DAA - Dual Automatic Activator

DAAM - Double Automatic and Manual Activator

SAA - Single Automatic Activator

TO WEAR:

1. Tear open the bag
2. Extract the chamber
3. Put on the chamber
4. Secure the waist strap

MODULO SMART 290

VACUUM

Double-compartment floating chamber with X3D rotation system in PA 420 PU-coated fabric with electronically-controlled high-frequency welds. Designed to contour to the body's ergonomics and optimise positioning in the water. Thanks to the special V-shape, it guarantees an immediate rotation of the body and, through the "fins" structure behind the nape, provides excellent support and perfect stability to the wearer's head. The chamber's design guarantees the best clearance of the mouth above the water in the inflatable vests category.

ACTIVATION SYSTEMS:

- Automatic: upon falling into the water, the system automatically activates within 5 seconds of submersion, with the inflation of the floatation chamber. Automatic activation occurs thanks to the salt activator UML MK5, through the dissolution of a water-soluble tablet or with the Hammar MA1 hydrostatic activator due to the pressure generated from being immersed in the water by at least 10 cm.
- Oral: this type of inflation is achieved via the special mouth tube, with a non-return valve and protective cap. To inflate the chamber, simply blow into the tube.

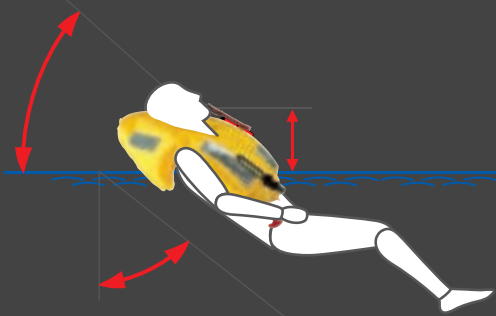

FRONT

STRUCTURE:

- Chamber is assembled on a special and resistant cutted fabric that ensure, together with structural tapes system, a correct wearing and the best positioning over the user.
