

SAMOA

SAMOA is an ISO 12402-3-certified life jacket bearing a black quick-release acetal buckle fastener with a 40 mm strap, a whistle secured to the jacket, a rescue handle and two retro-reflective bands across two different areas of the jacket - on the front at chest height and behind the nape of the neck.

The Child size is equipped with the same features as the Adult size whilst both sizes can be fitted with an automatic emergency light.

Designed for recreational activities at open sea and/or in unfavourable weather conditions and for safely awaiting rescue even in rough waters. The neck folding system even reduces storage space by 25%, lowering its bulk to 70x35x11 cm (open) and 45x35x11 cm (closed).

The Child size also boasts this feature, reducing its bulk to 55x27x11 cm (open) and 45x27x11 cm (closed).

Convenient transport and stowage can also be ensured thanks to a bag designed to hold 4 SAMOAs, measuring approximately 45x35x48 cm.
