

LIFE BUOY ALTURA

art. 12000

Designed to ensure maximum safety in maritime environments, the ring lifebuoy is an essential flotation device for commercial vessels, recreational boats, and offshore installations. Made from highly resistant materials that withstand weather conditions, oils, and UV rays, it guarantees long-lasting durability and reliable performance in any emergency situation.

Equipped with four strips of Solas-certified adhesive reflective tape for lifesaving equipment, the lifebuoy ensures maximum visibility even in low-light conditions. Additionally, it comes with a grab line to facilitate rescue operations at sea.

CHARACTERISTICS	
Art. 12000	
Tipo:	Lifebuoy
Approved:	Approved lifebuoy in compliance with LSA Code - SOLAS M.E.D. - IMO Res. - MSC 81(70) - MSC 226(82) - D.M. n° 385.
Weight:	> 2.5 kg
Dimension:	Ø Ext 72 Int 43,5
Color:	Orange-Red
Description:	<p>This device is made from high-density, highly resistant material, capable of withstanding the following tests without damage, performed in succession:</p> <ul style="list-style-type: none">• Climatic chamber testing with 10 cycles of 8 hours at +65°C and 8 hours at - 30°C• Free-fall into the sea from a height exceeding 30 meters• Series of three drops from 2 meters onto a concrete surface• Complete immersion in diesel oil for 24 hours• Fire resistance tested by exposure to open flames• Breakage resistance tested by applying a tensile force with a mass of at least 90 kg for 30 minutes
